DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

The latest version of the claims is not in accordance with reissue practice. A new copy of the claims is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

Claims 1 and 3-23 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 2-5, 1-23 have been unchanged and are allowable for reasons of record. Regarding claim 6, which is amended, the closest prior art is the patent to Hernandez et al., US 5,269,759. Claim 6 requires an elongated distal shaft section having a second and third lumen. In contrast, the Hernandez device shows the distal shaft section (guide catheter 10) having no third lumen. Further Hernandez requires an inflatable balloon on the distal shaft section having an interior in fluid communication with the second inner lumen. Groshong et al., US 4,431,426 has also been applied to previously presented claims. With regard to newly presented claim 6, Groshong does not disclose a balloon and the entire apparatus is dedicated to a method of inserting a

Hickman-type catheter with a tissue tunneler. Alexander, US 4,004,588 is also lacking

the disclosed embodiments. As regards Polin, US 3,828,782, note is made of figure 6.

Claim 6 requires that the second lumen and the first lumen be in fluid communication, wherein the second lumen is also in communication with an inflatable balloon.

However, assuming that tube 46 is the second lumen (see distal port 25 of tube 46, which communicates with the balloon) it can be readily ascertained from the figures that this tube 46 in no way connects to a figure lumen, which would be Polin lumen 19.

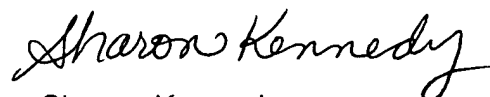

As regards the oath, applicant's comments are noted, and the oaths (original and supplemental) are sufficient.
